Desired Technology

Ground Source Heat Pump: Air Source Heat Pump: Solar Thermal: Solar Photovoltaic: Underfloor Heating:

Property Summary

Is your electrical supply single phase 230-240V: Type of building:
applies to most domestic properties eg house, offices, village hall
 Number of occupants: Age of Property: Type of project:
eg new build, extension, refurbishment, conversion

Heat Pump Information

Insulation

Please describe type, specification and thickness of insulation

Walls:
 Floor:
 Roof:
 Single or Double Glazing:

Size of property

Internal floor area of building to be heated

Unit of Measure (m² or ft²):
 Ground Floor:
 First Floor:
 Other:
 Total:

External Ground Space

External ground space available for ground loops or boreholes

Unit of Measure (m² or ft²):
 Length: x Width: = Area:

Use of Heat Pump

Do you want the heat pump to provide hot water:
 Type of Heating Distribution System:
eg radiators, underfloor, ducted air

Solar Information

Roof Space

Exterior area of the roof available for solar panels

Unit of Measure (m² or ft²):
 Length: x Width: = Area:

Roof Construction

What is the roof construction:
eg tiled, slate, flat
 Roof Orientation:
eg south, south east

Underfloor Heating Information

Floor Construction

Describe the Floor Construction

Ground Floor:
 First Floor:
 Other:
eg screed, chipboard on joists
